KARMA CARD PAYMENTS · SOCIAL DESIGN KIT · V1.0

# Every post reads like a receipt.

A repeatable system for Facebook and Instagram, written for high-risk merchants who've heard "no" before. Eight layouts, three sizes each, one set of rules. Swap the copy, keep the structure.

01 · FOUNDATIONS

# Colour and type

The site couldn't be read from this build environment, so these colours and fonts are a proposed system. Every value is a token in `src/kit.css`; change it there and all 24 canvases update.

#12204A

### Vault

`--kc-vault`

Primary ink. Dark backgrounds for carousels, announcements, promotions.

#F2F4F8

### Paper

`--kc-paper`

Light backgrounds for tips, carousel steps and testimonials.

#E8B44A

### Karma Gold

`--kc-gold`

The Karma Ring, highlights, CTAs on Vault, quote backgrounds.

#12806F

### Settle Teal

`--kc-teal`

Labels and accents on Paper only. Never on Vault.

#56618A

### Slate

`--kc-slate`

Secondary text on Paper.

#AFB8D6

### Mist

`--kc-mist`

Secondary text on Vault.

#D9583F

### Decline Coral

`--kc-coral`

Strike-through on the word “declined” and sample tags. Nothing else.

## Colour modes

**Paper**

Tips · Steps · Testimonials

ACCENT: SETTLE TEAL

**Vault**

Covers · CTAs · Announcements · Promos

ACCENT: KARMA GOLD

**Gold**

Quotes only

ACCENT: WHITE RING

Feed rhythm: never post two Gold posts in a row; alternate Paper and Vault so the grid reads as a checkerboard.

## Type scale

| ROLE | FACE | L PX | P PX | S PX | LEADING | TRACKING | USE |
|---|---|---|---|---|---|---|---|
| Display | Bricolage Grotesque 800 | 70 | 112 | 124 | 0.96 | -3.5% | One per post. The hook. |
| H1 | Bricolage Grotesque 700 | 56 | 84 | 92 | 1.0 | -3% | Headline when Display isn't used |
| H2 | Bricolage Grotesque 700 | 36 | 54 | 58 | 1.06 | -2% | Testimonial quote, sub-heads |
| Body | Figtree 500 | 23 | 34 | 38 | 1.38 | 0 | Max 2–3 lines, 19em measure |
| Label | IBM Plex Mono 600 caps | 16 | 22 | 24 | 1.2 | +14% | Receipt strip, eyebrows, meta |
| Micro | Figtree 500 | 13 | 18 | 20 | 1.35 | 0 | Legal & disclaimers only |

# Declined before?

Figtree carries the explanation: plain, calm, readable at phone size.

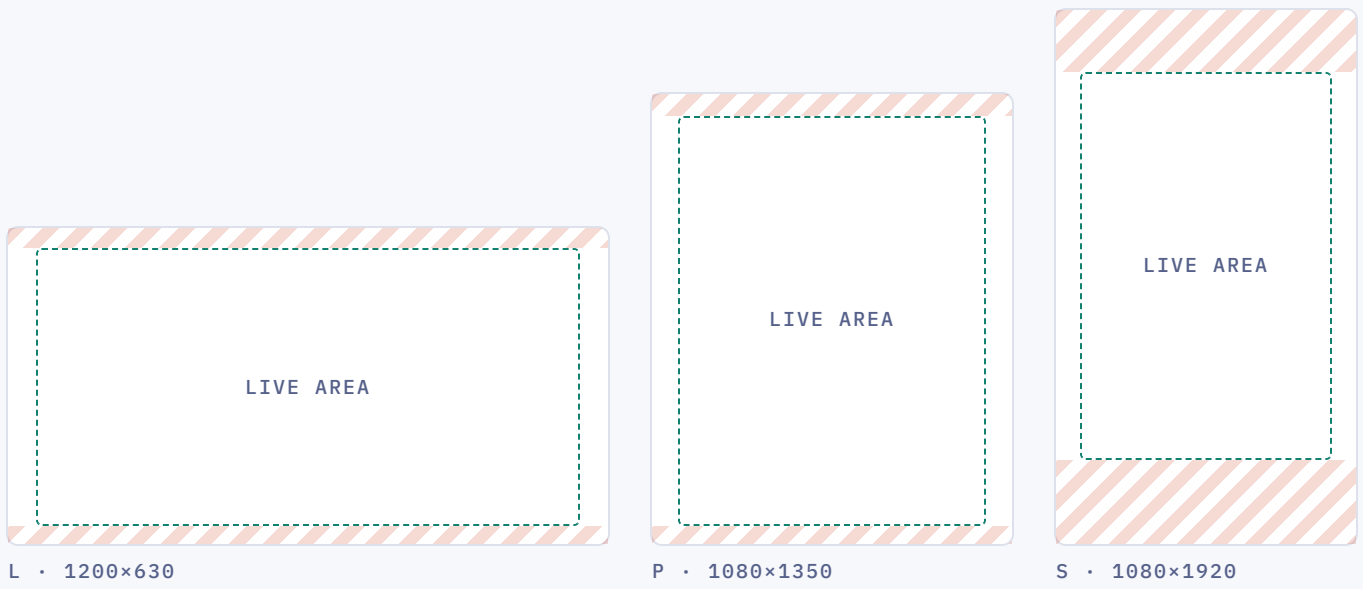

IBM PLEX MONO · RECEIPT LABELS · TIP · 014

02 · GRID & SIZES

# Three canvases, one structure

Every canvas stacks the same four zones: **receipt strip**, **message**, **legal line** (promotions only), **settlement footer**. Landscape puts the message in two columns; portrait and story stack it.

| SIZE | SIDE MARGIN | TOP / BOTTOM | GAP UNIT | SAFE-ZONE RULE |
|---|---|---|---|---|
| L · 1200×630 | 56 | 40 / 36 | 22 | Keep text in the left 60%. FB crops nothing, but IG shows it at 1.91:1 small. |
| P · 1080×1350 | 80 | 64 / 56 | 32 | IG grid previews the centre 1080×1080: keep the hook between y 135–1215. |
| S · 1080×1920 | 88 | 220 / 300 | 36 | Top 220 px and bottom 300 px sit under Story UI. Nothing readable there. |

Spacing uses one gap unit per size (22 / 32 / 36 px). Elements inside the message zone are separated by 1 gap; the strip's dashed rule sits 0.6 gap below its labels; checklists use 0.5 gap.

03 · BRAND ELEMENTS

# Four things on every post

### Receipt strip

Top of every canvas. Left: content code in mono (`TIP · 014`, `GUIDE · 007`, `OFFER · 012`). Right: a status chip with a dot. Closed by a dashed rule, like a till receipt. Number posts sequentially per pillar.

### Status chip

Pill with a coloured dot: teal on Paper, gold on Vault, Vault on Gold. Two or three words. It tells the scroller what kind of post this is before they read it.

### Karma Ring

The gold ring (what goes around comes around), always cropped off the bottom-right corner at 38% of its size. White on Gold posts, 45% opacity on Paper. Dropped on carousel steps and announcements so content can breathe.

### Settlement footer

Wordmark left, URL or carousel dots right. Same position on every size. The wordmark here is a type-set placeholder: replace `.kc-mark` with your logo SVG at the same height (34 / 48 / 52 px).

## Signature moves

- **The gold highlight.** One phrase per headline, the promise (“under 1%”, “Get approved”). Marker underline on Paper, gold text on Vault.
- **The Declined strike.** Coral line through “Declined”, followed by the positive word. Use on promotions and covers, at most once a month.
- **Numbers as heroes.** Tip and step numbers set in Display size. A merchant should be able to say “tip 14” in a DM.

04 · CONTENT PILLARS

# What to post, in which layout

| PILLAR | LAYOUT | MODE | CADENCE | JOB |
|---|---|---|---|---|
| Tips | Educational tip | Paper | 2× / week | Build trust: show you know underwriting better than anyone. |
| Tutorials | Carousel (cover → steps → CTA) | Vault + Paper | 1× / week | Saves and shares. The highest-value post type. |
| Quotes | Quote | Gold | 1× / week | Point of view. Reassure merchants who've been declined. |
| Promotions | Promotion, Announcement | Vault | 2× / month | Drive applications. Always carries the legal line. |
| Social proof | Testimonial | Paper | 2× / month | Real merchants, real permission. |

Voice for high-risk merchants: reassuring and expert. Name the fear (“declined”, “frozen funds”, “reserve”), then the fix. No hype, no guarantees, no exclamation marks.

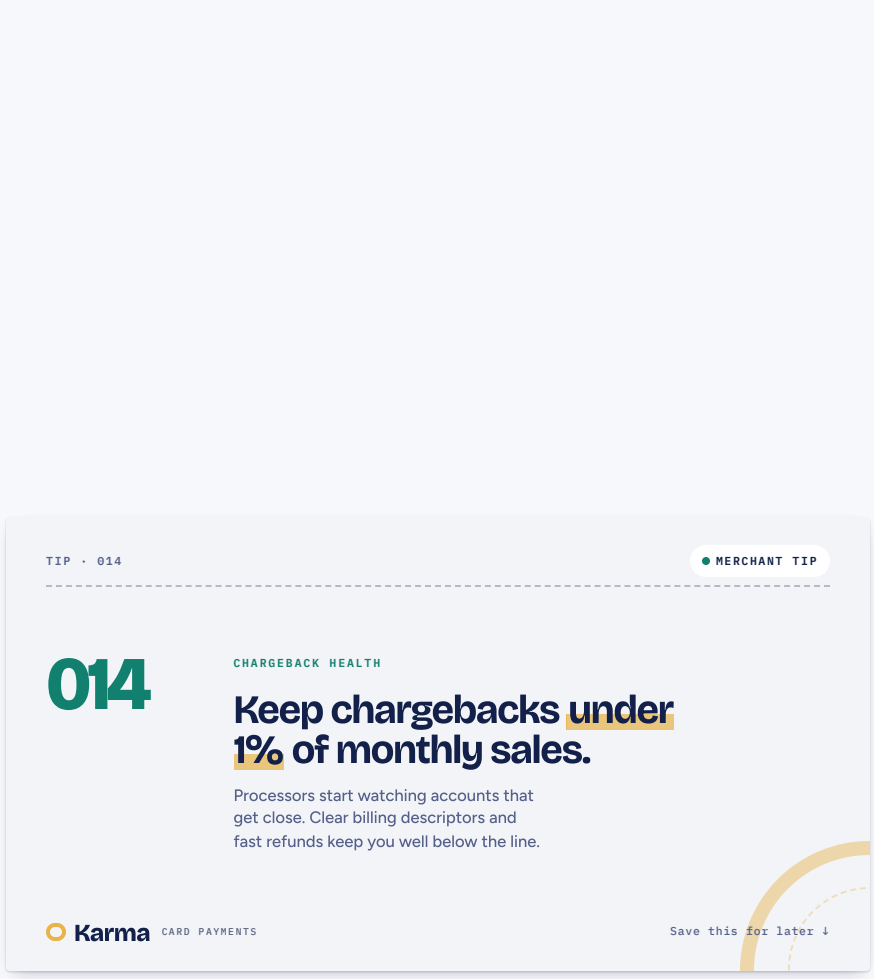

05 · TEMPLATES

# Eight layouts × three sizes

## Educational tip

TIPS PAPER

Weekly how-to nuggets: chargebacks, descriptors, PCI, reserves, documentation.

L · 1200×630

P · 1080×1350

S · 1080×1920

### TEXT HIERARCHY

1. Receipt strip: TIP · ### + “Merchant tip” chip
2. Tip number in Display size, Settle Teal
3. Eyebrow (topic, mono caps)
4. H1 headline with one gold highlight
5. Body: one or two sentences
6. Footer: “Save this for later ↓”

### COPY LIMITS

Headline ≤ 55 characters · body ≤ 140 · one highlight per headline

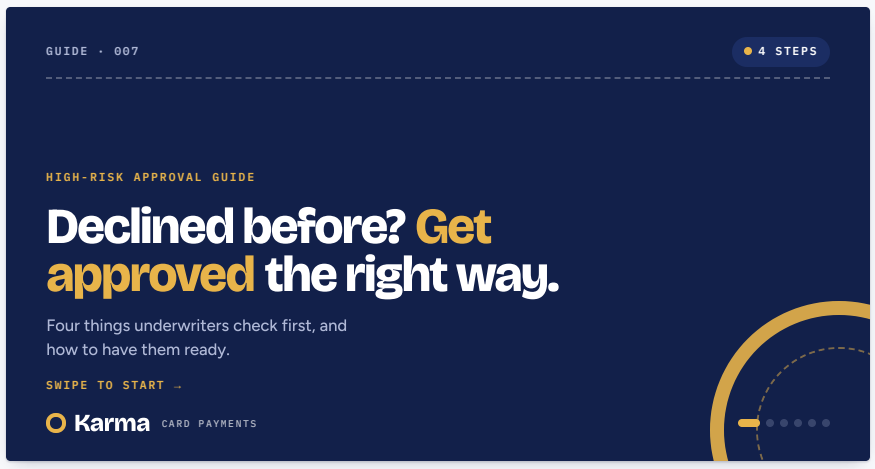

### IMAGE PLACEMENT

No photo. The number is the visual.

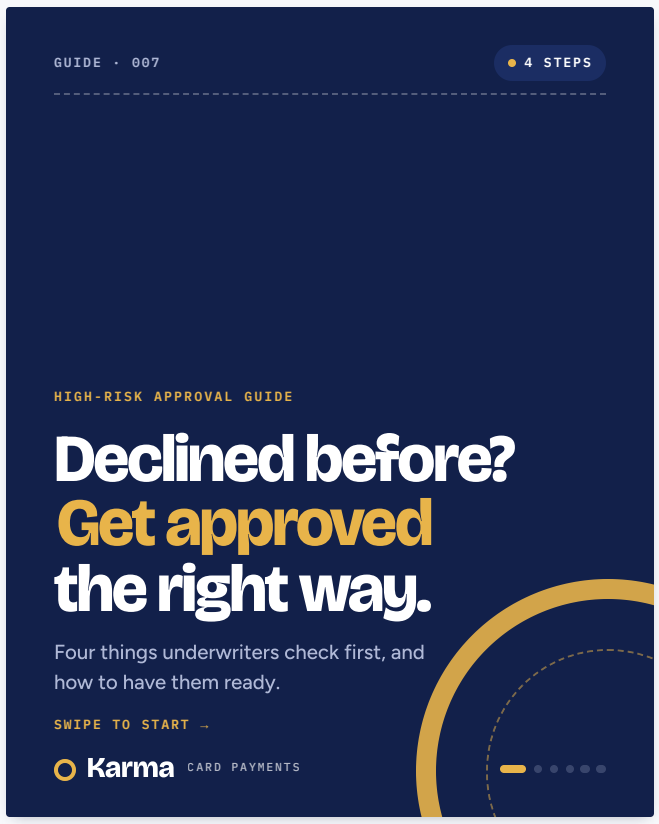

# Carousel cover

TUTORIALS VAULT

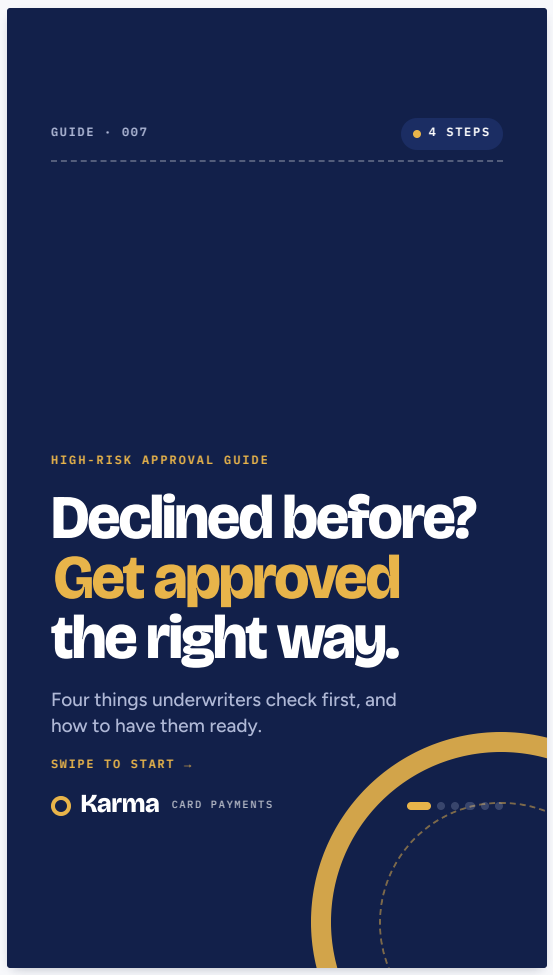

Opens every multi-slide tutorial or checklist. Always followed by step slides and a closing CTA.

L · 1200×630

P · 1080×1350

S · 1080×1920

## TEXT HIERARCHY

1. Strip: GUIDE · ### + “N steps” chip
2. Content bottom-aligned (thumb-stopping weight sits low)
3. Eyebrow → Display headline (gold highlight on the promise)
4. One-line body, then “Swipe to start →”
5. Progress dots in footer: first dot is the long gold pill

## COPY LIMITS

Headline ≤ 45 characters · 3–8 steps · 1080×1350 for IG carousels

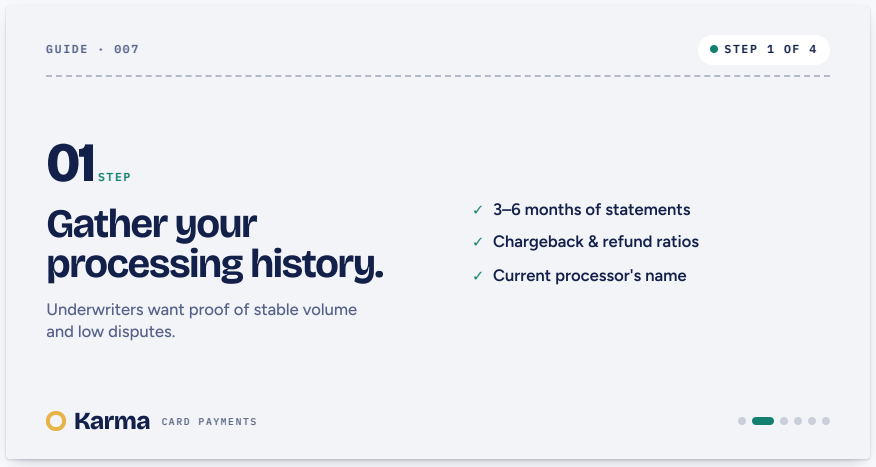

## IMAGE PLACEMENT

No photo. Optional: swap the ring for a product screenshot cropped at the same corner.

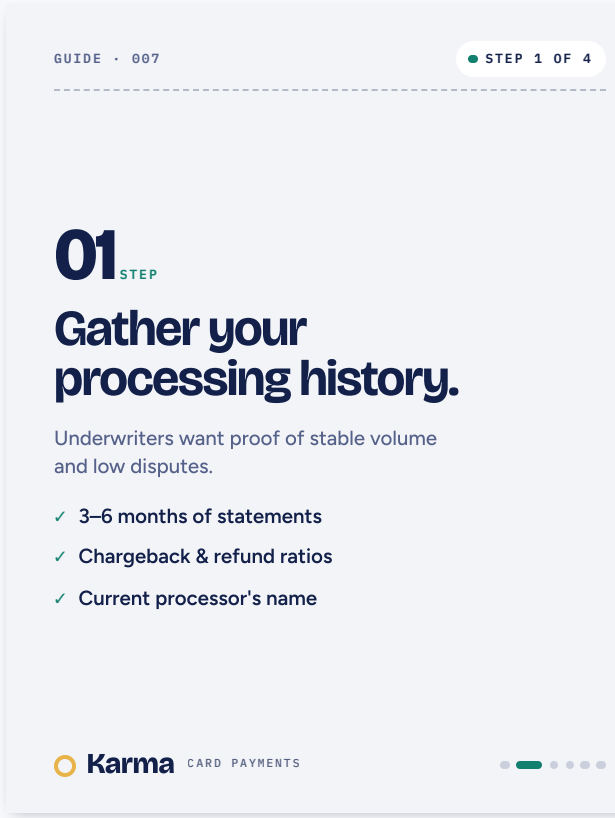

# Carousel step

TUTORIALS PAPER

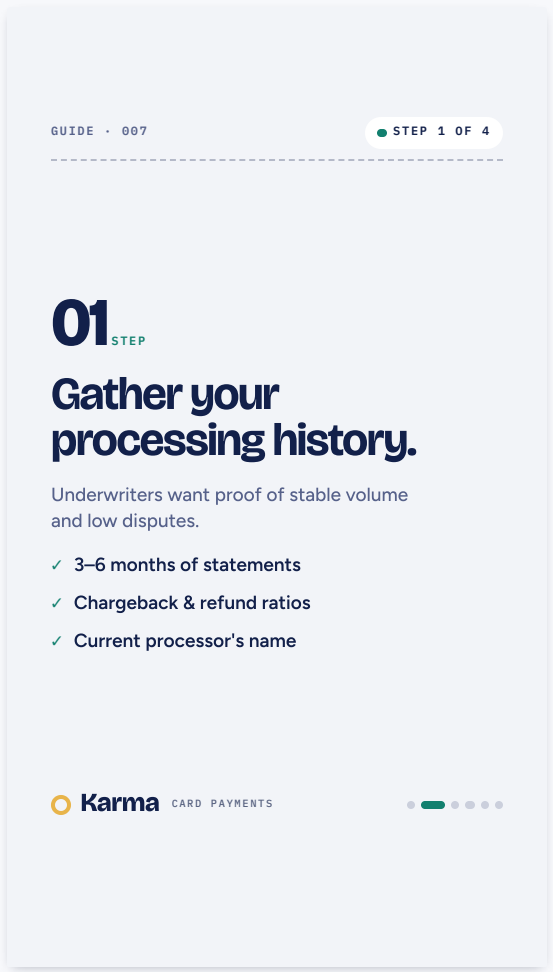

One idea per slide. Repeat the layout; only the number, headline, body and checklist change.

L · 1200×630

P · 1080×1350

S · 1080×1920

## TEXT HIERARCHY

1. Strip chip: “Step N of N”
2. Big step number (Display, Vault) + mono “STEP” label
3. H1 action headline (starts with a verb)
4. Body: why it matters
5. Checklist: up to 4 ✓ items
6. Dots: current step highlighted in teal

## COPY LIMITS

Headline ≤ 40 characters · ≤ 4 checklist items, ≤ 32 characters each · no Karma Ring (keeps slides calm)

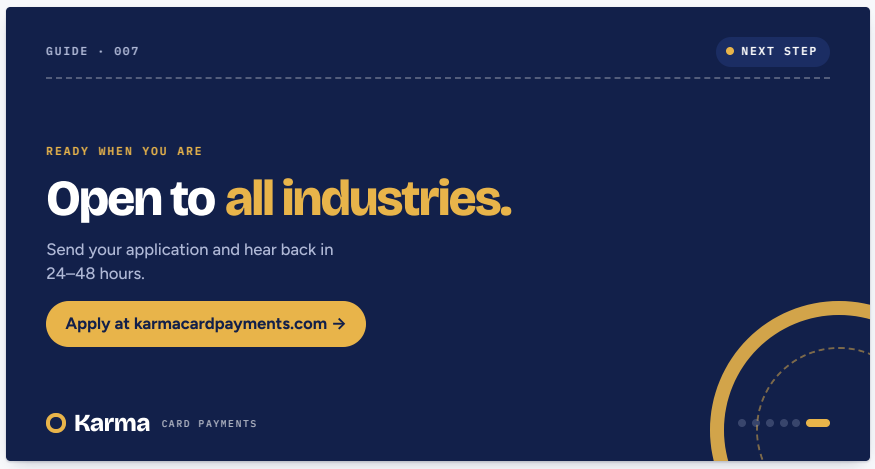

## IMAGE PLACEMENT

None. Use a screenshot only when the step is about a form or dashboard.

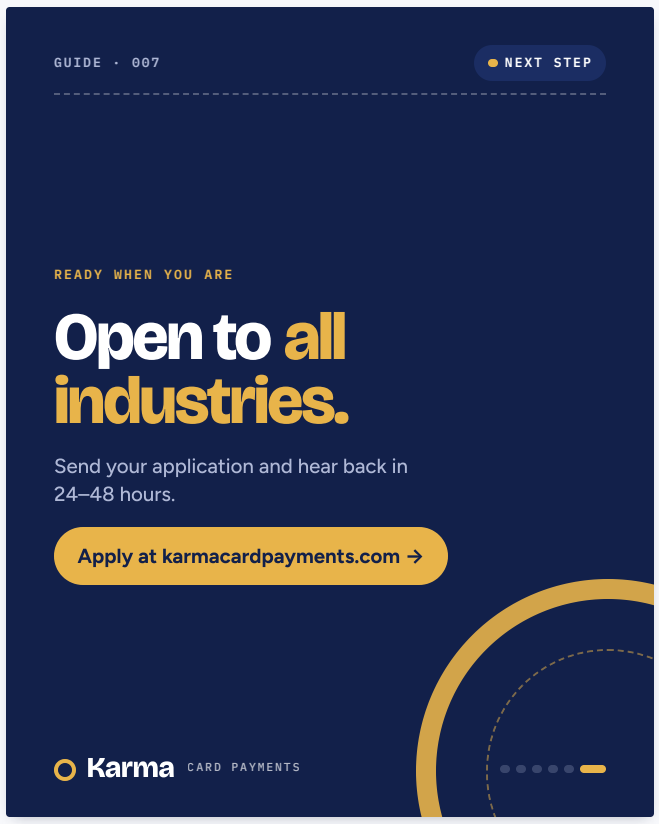

# Carousel closing CTA

TUTORIALS VAULT

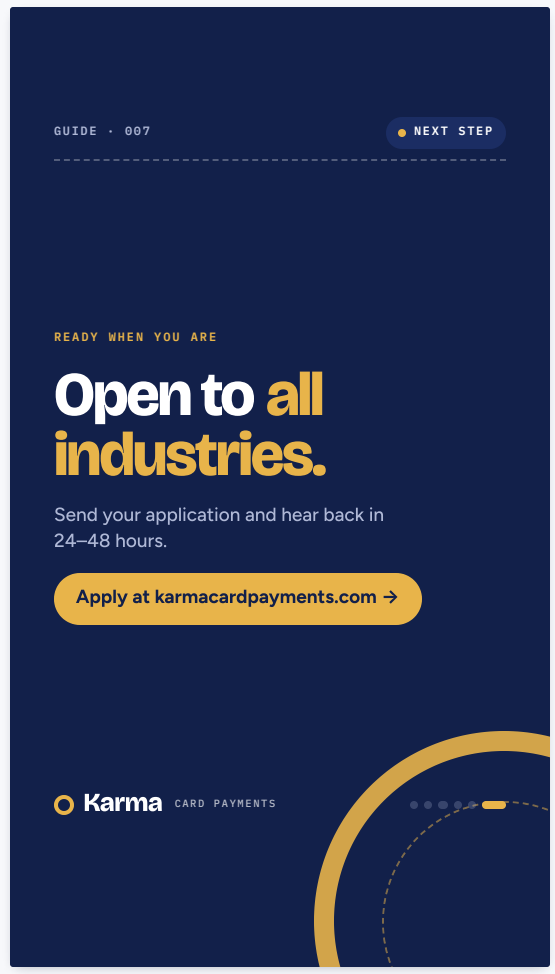

Last slide of every carousel. The only carousel slide with a button.

L · 1200×630

P · 1080×1350

S · 1080×1920

### TEXT HIERARCHY

1. Strip chip: “Next step”
2. Eyebrow → Display headline
3. Body with the response-time promise
4. Gold pill CTA with URL
5. Dots: last dot active

### COPY LIMITS

One CTA only · button text ≤ 32 characters

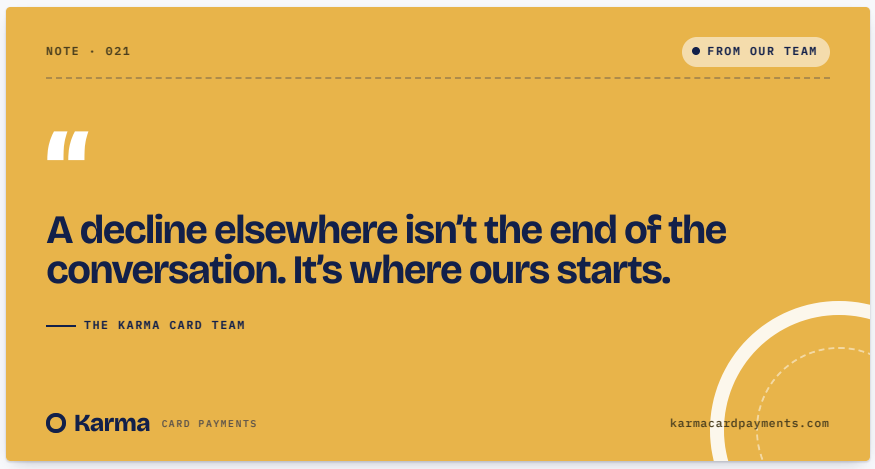

### IMAGE PLACEMENT

None.

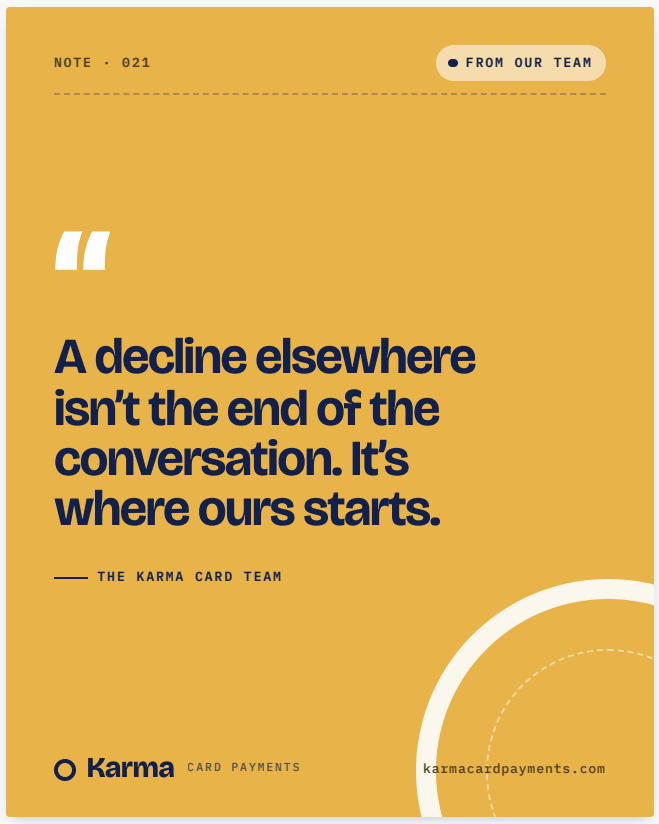

# Quote

QUOTES GOLD

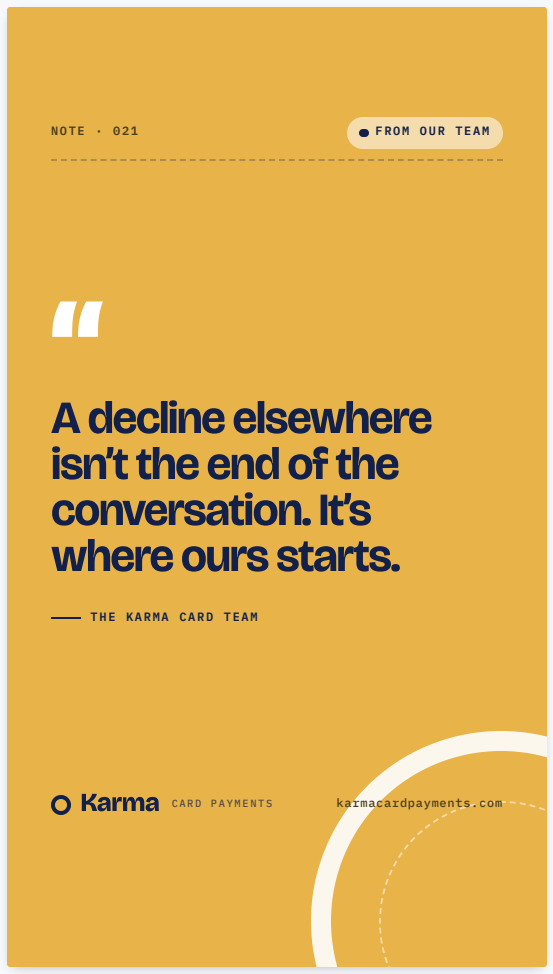

Brand point of view, founder notes, industry insight. Max one in every six posts so gold stays special.

L · 1200×630

P · 1080×1350

S · 1080×1920

### TEXT HIERARCHY

1. Strip: NOTE · ### + chip (“From our team”)
2. Oversized white quote mark
3. H1 quote text, Vault
4. Attribution with rule, mono caps
5. White Karma Ring

### COPY LIMITS

Quote ≤ 90 characters · attribute only real people who approved the wording, otherwise “The Karma Card team”

### IMAGE PLACEMENT

No photo. Optional 1:1 headshot can replace the quote mark.

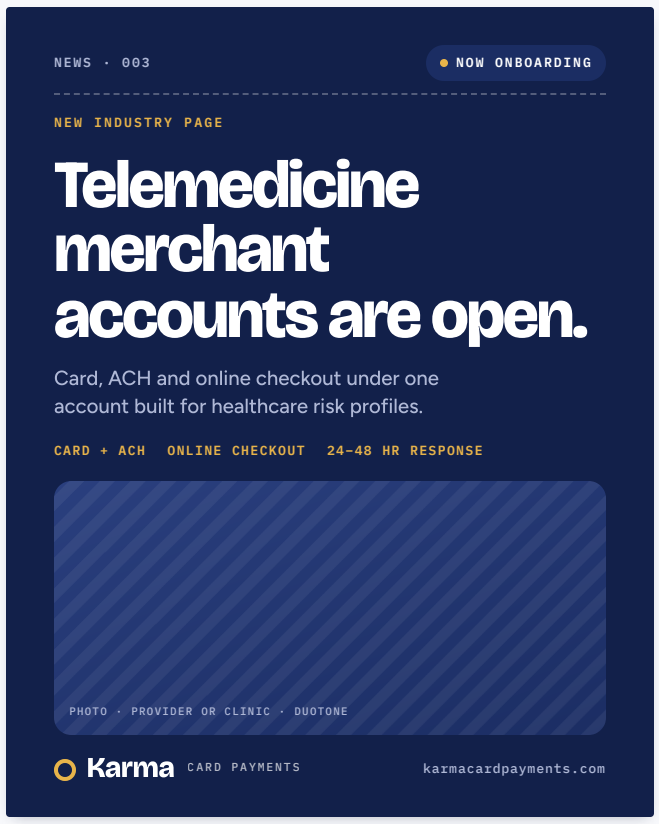

# Announcement

PROMOTIONS / NEWS  VAULT

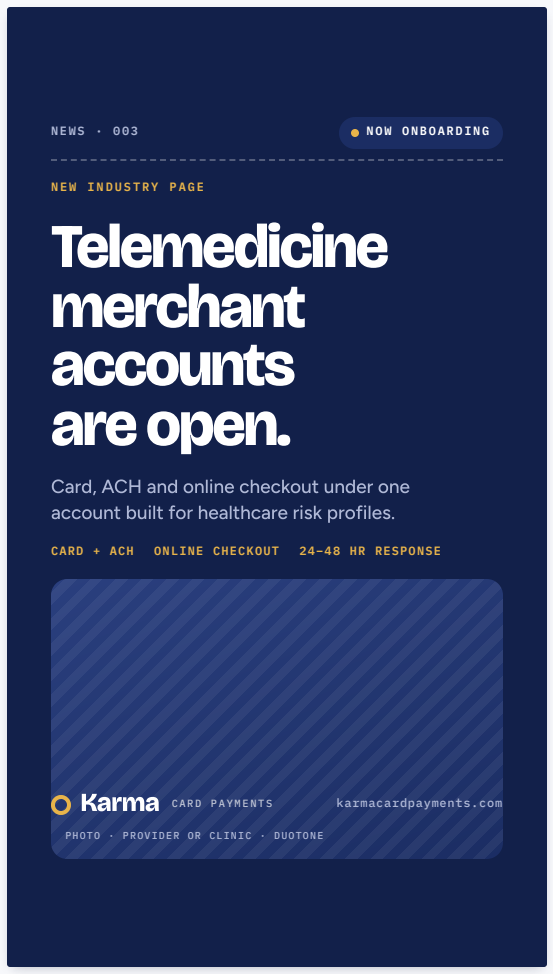

New industry pages, new payment methods, office hours, events, partner news.

L · 1200×630

P · 1080×1350

S · 1080×1920

### TEXT HIERARCHY

1. Strip chip: status (“Now onboarding”, “New”, “Event”)
2. Eyebrow → Display headline
3. Body: what it means for the merchant
4. Meta row: up to 3 gold facts
5. Photo panel (right on L, below on P/S)

### COPY LIMITS

Headline ≤ 50 characters · 3 meta facts, ≤ 20 characters each

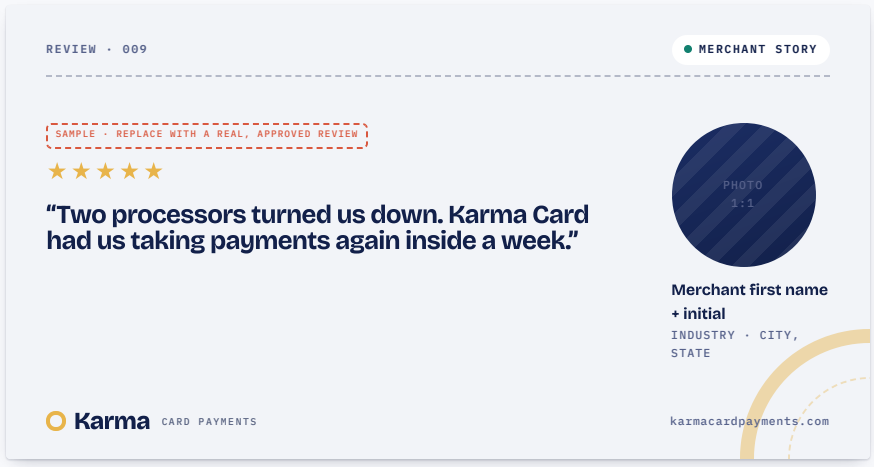

### IMAGE PLACEMENT

Photo slot: L 5:6 right half · P full width, flexible height · S 560 px tall. Duotone Vault overlay 20–35%.

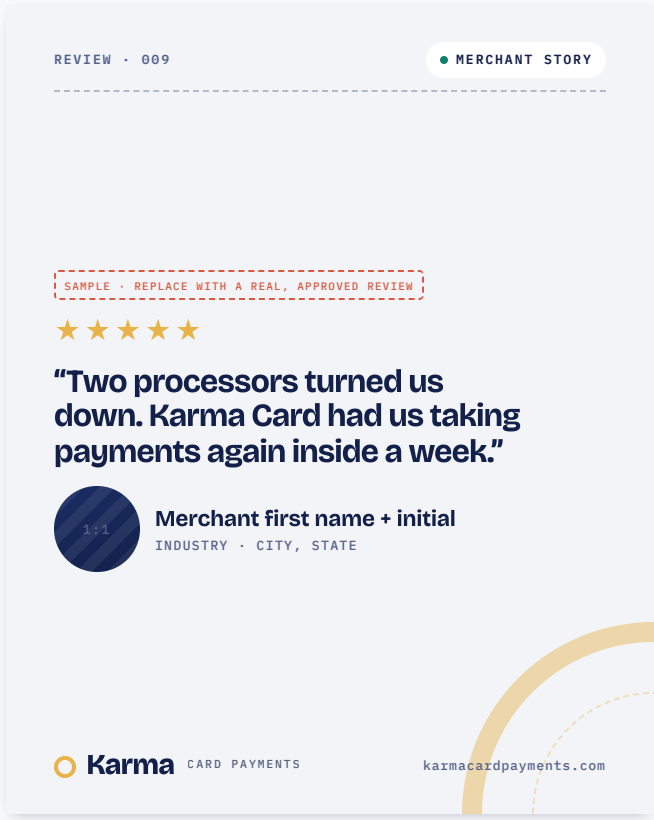

# Testimonial

SOCIAL PROOF · PAPER

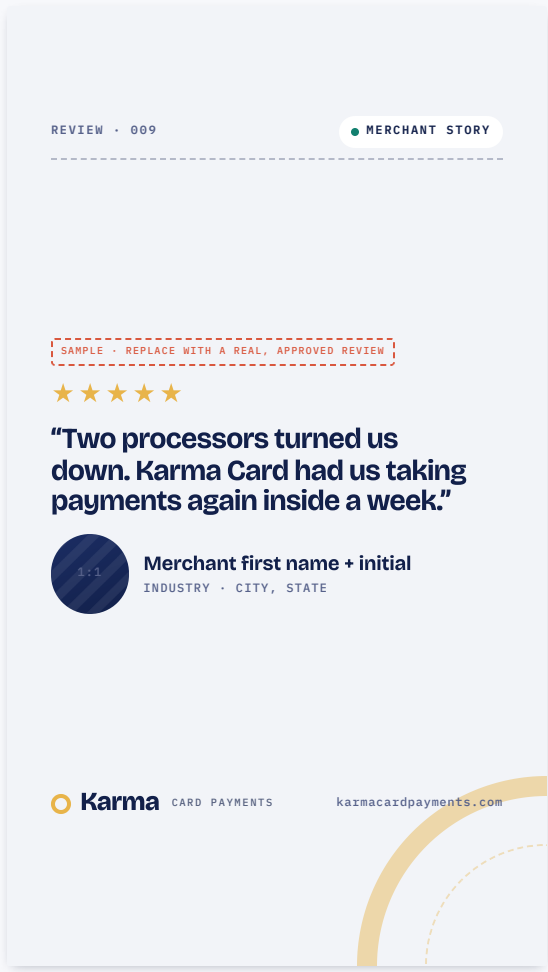

Merchant reviews and case results, only with written permission from the merchant.

L · 1200×630

P · 1080×1350

S · 1080×1920

## TEXT HIERARCHY

1. Strip: REVIEW · ### + “Merchant story” chip
2. Five gold stars only if the review gave five stars
3. H2 quote in quotation marks
4. Round 1:1 photo + name + industry/city

## COPY LIMITS

Quote ≤ 120 characters · first name + last initial · never invent or edit a review's meaning

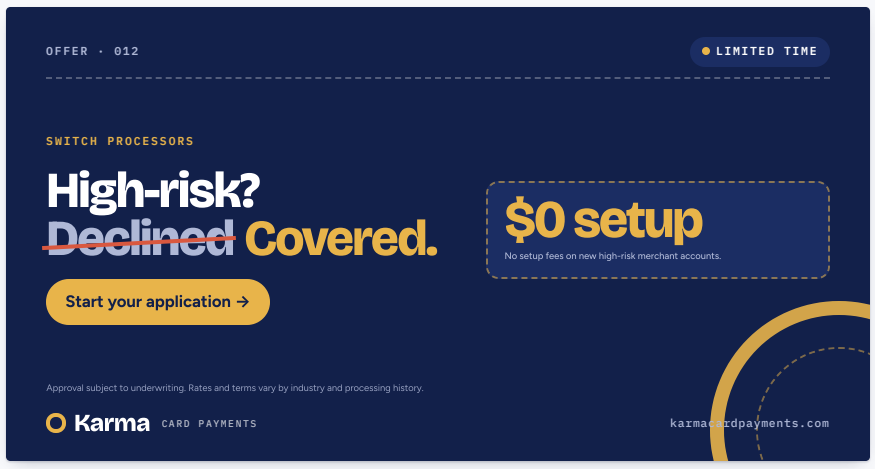

## IMAGE PLACEMENT

Round 1:1 headshot or storefront. Real customer photos only, no stock faces.

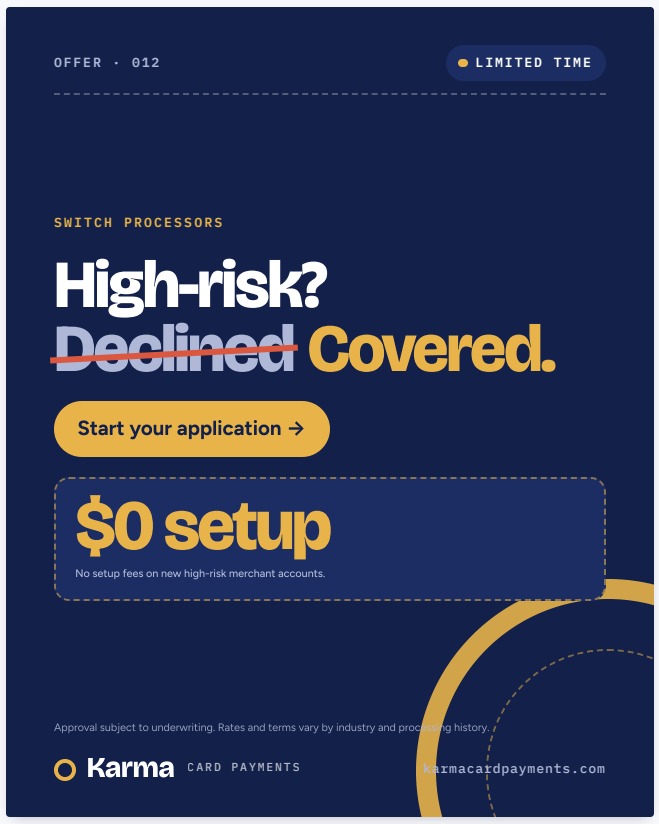

# Promotion

PROMOTIONS VAULT

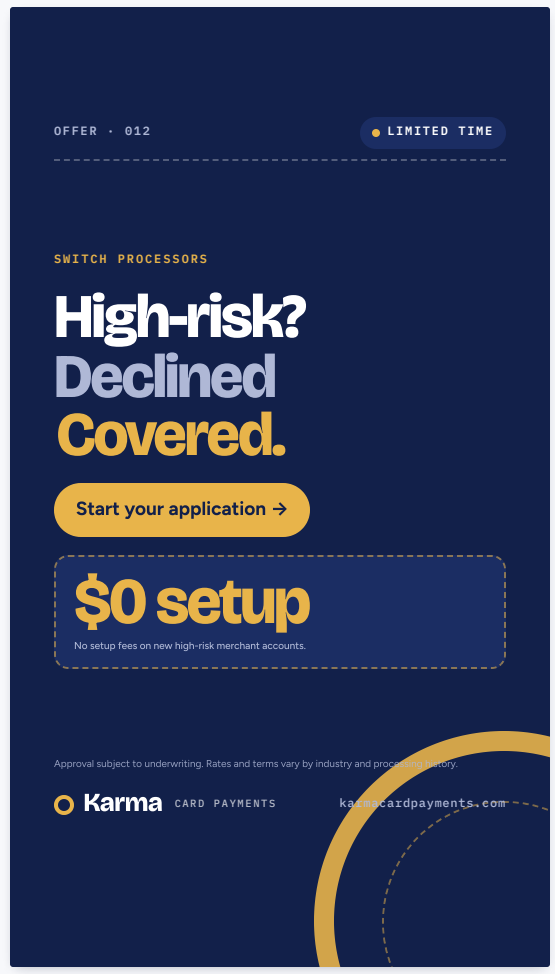

Fee offers, switch-over campaigns, seasonal pushes.

L · 1200×630

P · 1080×1350

S · 1080×1920

### TEXT HIERARCHY

1. Strip chip: urgency (“Limited time”, “This month”)
2. Eyebrow → Display headline (the Declined strike is the signature move)
3. Gold CTA pill
4. Offer coupon: dashed gold border, big gold figure
5. Legal line above footer (required)

### COPY LIMITS

Offer figure ≤ 10 characters · legal line always present · end dates stated in caption

### IMAGE PLACEMENT

No photo. The coupon is the visual.

06 · IMAGERY

# Photo direction

## Use

- Real merchants at work: counters, warehouses, studios, clinics.
- Card terminals and checkout screens in context.
- Duotone treatment: photo at 100%, Vault multiply layer at 20–35%.
- Faces looking toward the text side of the canvas.

## Avoid

- Handshakes, piles of cash, stock “business people”.
- Product imagery for restricted categories (firearms, CBD, adult, gambling). Meta may limit or reject the post.
- Text baked into photos. All text stays live in the template.
- Logos of card networks unless you follow their brand rules.

07 · COMPLIANCE

# Rules for a high-risk processor

- **No guaranteed approvals.** Say “open to all industries” or “apply and hear back in 24–48 hours”, never “guaranteed approval”.
- **Legal line on every offer.** “Approval subject to underwriting. Rates and terms vary by industry and processing history.” Add end dates in the caption.
- **Check every claim against the website.** “No setup fees” and approval-rate figures must match current terms before posting.
- **Testimonials need written permission** and must be the merchant's own words. The sample tag on the template is there to stop a placeholder going live.
- **Boosted posts** about financial services fall under Meta's special ad categories in some regions, which limits targeting. Plan audiences with that in mind.

08 · PRODUCTION

# Pre-post checklist

1. Right layout for the pillar, right colour mode, and it doesn't repeat the previous post's mode.
2. Receipt code updated and sequential (`TIP · 015` follows `014`).
3. One highlight in the headline. Copy within the character limits.
4. Nothing readable in Story safe zones (top 220 px, bottom 300 px).
5. Legal line present on promotions; sample tag removed from real testimonials.
6. Export PNG at native size: 1200×630, 1080×1350, 1080×1920.
7. Caption: hook in the first 125 characters, a CTA, the URL, 3–5 hashtags at most.

Files: `exports/png/` holds the rendered samples, `exports/express/` one Adobe Express import file per size, and `src/templates.mjs` the sample copy you edit to make new posts. Run `npm run build` to regenerate everything.
